Booths with merch info

1 Merch info

Merch posts the artist shared on X appear **instead of the booth cut**. Newest posts come first, and the number next to the title is the post count. Long lists scroll inside this box.

2 Hide

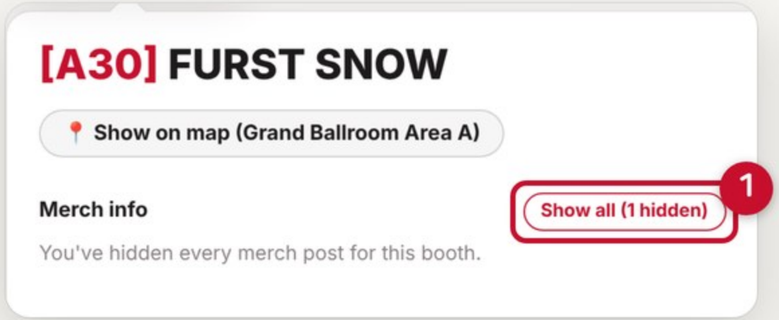

Use "Hide" above a post to tuck away posts you don't want to see (next page).

🛍️ **Merch info will keep being added.** Booths without it show the booth cut. The 🆕 **Updated** tab gathers booths with new posts.

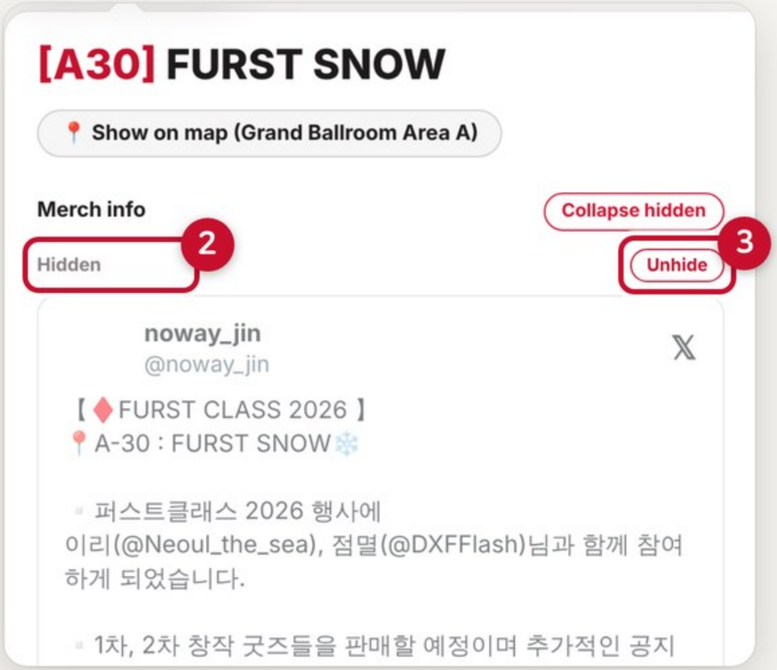

Click a post to open the original on X. Posts X marks as sensitive, or posts that fail to load, appear as a "View on X" link card.
